Harm Less Friday

by

PARTY HARM REDUCTION

Progressive

Fri 5 Dec 2025, 4–8 PM Žitná 51, Prague 1

come check what you're taking, anonymously and for free

substance analysis before the weekend? no problem!

• the whole process is completely anonymous and free of charge

how does it work?

- come by on December 5th, anytime between 4-8 PM, at Žitná 51, ring the Progressive bell (bottom one)
- our staff will let you in and meet you in the hallway
- there will be two rooms available for sample drop-off:
 - in the first room, our staff will explain the process: you'll receive an envelope, printed instructions, and a small plastic bag (all with your unique code, which you'll later need to access your result), you'll fill out a short anonymous questionnaire (just a few questions, no personal data), if anything's unclear, feel free to ask the staff for help
 - o in the second room, **you'll hand in your sample privately**: put a small amount (about the tip of a knife) into the plastic bag, place it in the envelope, drop the envelope into the collection box and that's it!
- your analysis result will be available within 30 minutes using your unique code at drugsinfosite.org

that's not all!

- we'll also have a third room ready a chill-out and harm reduction zone where you can stay a bit longer and
 - o grab some harm reduction materials, vitamins, fruit, water, or tea
 - take a break and chill (maybe with our sloths)
 - chat about anything (from what's new on the party scene and how to stay safe, to drug effects, risks, and harm reduction, or simply whatever's on your mind)
 - o arrange one-on-one counselling session with our staff

important info

- bring only the amount needed for analysis a knife-tip size sample is enough
- the analysis will show what your sample contains, but not in what quantity
- using any substance always carries risks, even if you know its content
 → follow harm reduction rules
